## Computer Society of India

Formed in 1965, the Computer Society of India (CSI) has been instrumental in guiding the Indian IT industry down the right path since its formative years. The mission of the CSI is to facilitate research, knowledge sharing, learning and career enhancement for all categories of IT professionals, while simultaneously inspiring and nurturing new entrants into the industry and helping them to integrate into the IT community.

The goal of Computer Society of India - Gwalior Chapter is to facilitate Knowledge sharing among IT practitioners and researchers and to nurture students of this field and new entrants in the area of Information and Communication Technology. It has direct links with the members. For the benefit of members, the Chapter organize monthly technical meetings, product presentations, Conferences etc. The Chapter activities are managed by a Committee of elected members headed by the Chairman. The committee has eight members each one taking care of the activities relating to the divisions of the Society.
